EDUCATION

General Assembly
Web Development Immersive
August - November, 2015

University of Texas at Austin
BFA, Studio Art

Castiglione Fiorentino,
Italy Study Abroad Program

PROFILE

I am a creative, dedicated, and enthusiastic individual with a wholehearted interest in designing beautiful applications. My recent position as associate director of Lora Reynolds Gallery facilitated the development of my communication, time-management, and organizational skills. The web development course at General Assembly honed my analytic skills while allowing me the freedom to be a creative problem solver.

EXPERIENCE

GENERAL ASSEMBLY   2015 | AUSTIN, TEXAS
WEB DEVELOPMENT IMMERSIVE
During this twelve-week intensive course I learned programming fundamentals, full-stack web and mobile development. I successfully created APIs on my own and through collaborative teamwork using languages and technologies, such as Javascript, object-oriented programming, Github, CSS, HTML, jQuery, Backbone.js, Node.js, Ruby, Ruby-on-Rails, and PostgreSQL.

LORA REYNOLDS GALLERY   2005 - 2015 | AUSTIN, TEXAS
ASSOCIATE DIRECTOR
At Lora Reynolds Gallery, my title changed as my role expanded and my responsibilities increased. On a day-to-day basis, I maintained relationships with artists and galleries, managed the logistics of shipping, framing, and displaying the artwork, and arranged travel plans and entertainment for visiting artists. I worked directly with internationally recognized artists such as Ed Ruscha, Robert Therrien, Teresa Hubbard/Alexander Birchler, Arlene Shechet, Cordy Ryman, and Donald Moffett. I was responsible for the gallery's daily operational needs—including invoicing, inventory, and contacts—and its online presence on Artsy and Artspace.

MICHAEL CHESSER   2011 – 2015 | AUSTIN, TEXAS
COLLECTIONS MANAGER AND PROFESSIONAL ORGANIZER
As collections manager, I created and maintained a database for Mr. Chesser's private art collection. I implemented a filing system for catalogs and information on a diverse range of artists. I also facilitated loans and donations to various institutions, and co-curated exhibitions at Mr. Chesser's home. Easy to maintain systems for home organization were set in place and tailored to the client.

SUE GRAZE   2012 - 2015 | AUSTIN, TEXAS
COLLECTIONS MANAGER AND PROFESSIONAL ORGANIZER
I developed an orderly filing system for this former museum director's art collection. Accounting systems such as Quickbooks and Excel were set up to help Ms. Graze easily keep track of finances for both home and personal business. My organizational skills brought a streamlined, efficient work-flow for Ms. Graze's home and home-office.

SKILLS
Javascript, CSS3, HTML5, jQuery, MongoDB, MySQL, Ruby, Ruby-on-Rails, PostgreSQL, pgAdmin, Backbone.js, Node.js, Express, AngularJS, Agile, Trello, SEO, Pivotal Tracker, Postman, Slack, Adobe Photoshop and InDesign, Quickbooks, Google Docs, Microsoft Office Suite, ArtSystems, and Artsy.
